Ordering

OVI40 UI board and Display module

OVI40 UI board and display board can be ordered here

The kits will require SMD soldering.

For the **OVI40 UI board** there are 3 order options:

- bare PCBs - you provide the components yourself
- kit - containing PCBs and all required components
- soldered and tested UI boards, ready to use

The **display board** is offered as soldered and tested module, ready to plug into OVI40 board.

The **rf board** is still under development and cannot be ordered at this moment. Please note that mcHF RF boards upto and including V0.6 are compatible with OVI40 Ui board and can be used also.
